# SAFETY MESSAGE

*Incident:*

**Harvey Team 3 – Jefferson County Operations**

*Date:* 9/5/2017

*Time:* 0700–2100

***Major Hazard and Risks:***

- **Vehicle Traffic/Roads**
- **Contamination(Flood Waters) and Personal Hygiene**
- **Heat, Humidity, and Sun Related Risks**
- **Public**
- **Thunder Storms**

***Narrative:***

- Take time and drive at a safe speed. Also, keep vehicles on paved surfaces. The ground is very soft and may not hold vehicle up. More and more traffic is on the road. Take precautions when parking, turning around, and working on roads and in parking lots. Also many roads have been flooded, watch out for roads that may be washed out or undercut that are not safe for travel.
- Problems with heat and the sun can sneak up on you. Be sure to keep hydrated and use sunscreen and wear your cover (hat). Each of us is a field safety officer. Keep an eye on others and watch for signs of any heat /sun problems. **Remember to drink three waters per one sports drink!**
- Do not take matters in your own hands, if you encounter disgruntled citizens notify Law Enforcement.
- Thunderstorms can move quickly in affected area. Observe the 30 minute rule. If you hear thunder, lightning danger persists for 30 minutes after. Move to a designated area.
- Adhere to the 2 to 1 work/rest ratio
- Maintain Situation Awareness!

Hurricane Harvey made landfall on Friday August 25th at 10 pm as a Category 4 hurricane. The South Carolina Forestry Commission’s (SCFC) Type 3 Incident Management Team (IMT) was requested to provide support and assistance to Jefferson County for logistical needs of life sustainability (food, water, and facilities). The IMT is working under the jurisdiction of the Texas A&M Forest Service with Jefferson County officials.

*SCFC's Incident Management Team works regularly with various organizations on training events and real-world disasters helping them to apply the principles of the Incident Command System framework. ICS is now widely adopted as the most effective organizational structure for both emergency situations and planned events. The only Type 2 IMT in the state, the Forestry Commission's team is the most highly qualified in the state. The team is currently deployed as a Type 3 IMT as an out of state deployment.*

## **Safety**

- Floodwaters often become contaminated with sewage or chemicals.
- Gas leaks and live power lines can be deadly, but are not obvious at first glance.
- Perform an inspection by walking carefully around the outside of your home and checking for loose power lines, gas leaks, and structural damage.
- Avoid drinking or preparing food with tap water until you are sure it is not contaminated.
- Wear protective clothing and be cautious when cleaning up to avoid injury.
- Watch out for wild animals, especially poisonous snakes. Use a stick to poke through debris.

## **What's next**

- If you evacuated, return home only when officials say it is safe. If you cannot return home and have immediate housing needs, text SHELTER+ your ZIP code to 43362 (4FEMA) to find the nearest shelter in your area.
- For those who have longer-term housing needs, FEMA offers several types of assistance, including services and grants to help people repair their homes and find replacement housing. Visit the FEMA site: <https://www.fema.gov/> to apply for assistance or search for information about housing rental resources.

## **Property Damage**

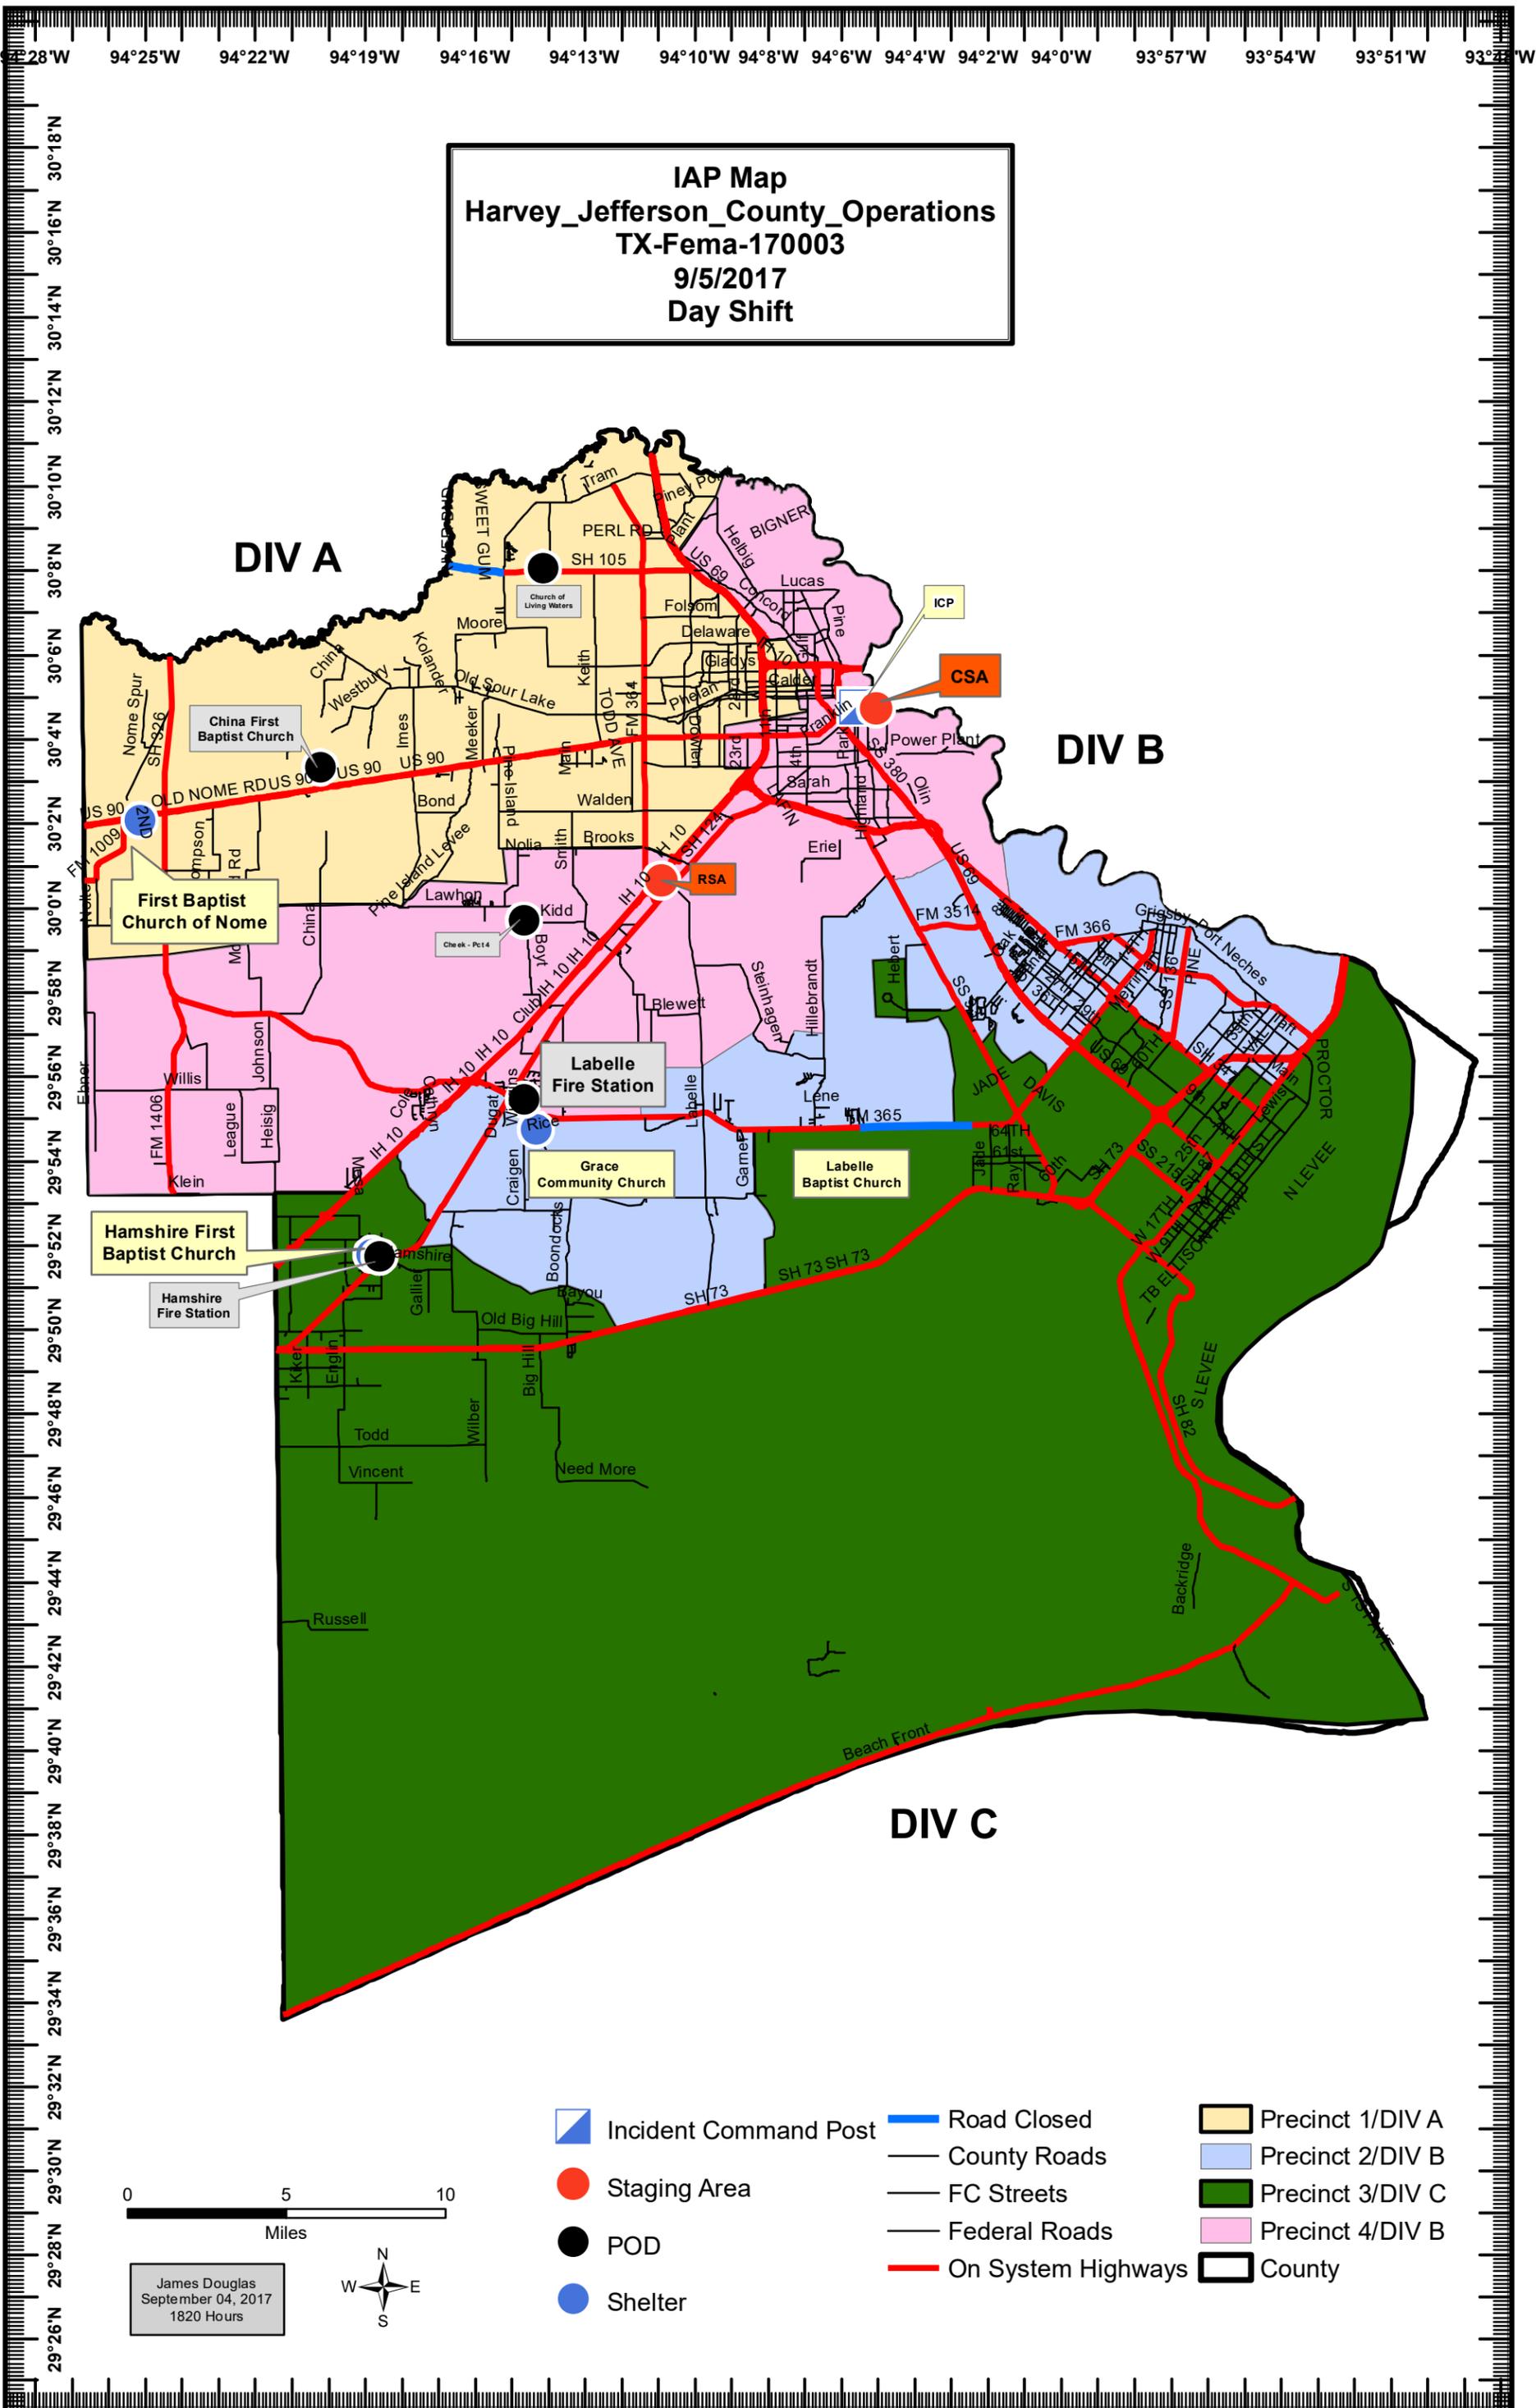

- Take reasonable steps to protect your property from further damage. This could mean boarding up windows and salvaging undamaged items. Your insurance company can tell you what they will pay for regarding protection.
- Report the loss as soon as possible. Contact your insurance agent or insurer as soon as you can. Provide a general description of the damage and have your policy number handy if possible. Write down the adjuster's name, phone number and work schedule as soon as you have them.
- Prepare a list. Keep damaged items or portions of them until the claim adjuster has visited, and consider photographing or videotaping the damage to document your claim. Prepare a list of damaged or lost items for your adjuster.
- Keep receipts. If you need to relocate, keep records and receipts for all additional expenses. Most insurance policies cover emergency living arrangements.
- Return claim forms. After your insurance company has been notified of your claim, they must send you the necessary claim forms within a certain number of days (time period varies by state). Fill out and return the forms as soon as possible. If you do not understand the process, be sure to ask questions and write down the explanation.
